Ken Halpern is an experienced intellectual property litigator.

Over his career, Ken has represented a range of corporate clients in patent and technical trade secret litigation across a broad range of technologies, including semiconductors, wireless communications, DRM, memory chips and modules, optical disks, social networking, pharmaceuticals, and every variety of software, as well as in copyright and trademark matters. He has practiced in the federal district courts in California, Texas, Delaware, New York, Washington and elsewhere, the state courts of California, and handled numerous appeals to the United States Court of Appeals for the Federal Circuit.
