

LITIGATION FELLOW

MOBINA RIAZI

Stanford, M.A. (2026)

Stanford, B.A. (2025)

mriazi@stris.com

Mobina Riazi is a Litigation Fellow at Stris & Maher, where she supports the firm's lawyers in a wide range of matters.

Mobina received an M.A. in Communications with Honors from Stanford University in 2026 and a B.A. in Political Science with a minor in Iranian Studies in 2025. At Stanford, her research centered on open-source investigation, which she used to explore emerging issues at the intersection of technology, civil liberties, and human rights. Her honors thesis, "[Iranians Confront Big Brother](#)," tracked the censorship activities of Iran's Digital Morality Police on Instagram, contributing to a better understanding of digital censorship methods in authoritarian regimes. With Stanford Law School's Humanitarian Program, she helped build the evidentiary case for "[School Poisonings in Iran: An Open-Source Investigation](#)."

Prior to joining Stris, she worked as a private investigator at Telescope Research, an analyst tracking cyberattacks at the Cyber Threat Alliance, a network navigator monitoring AI-enabled influence operations at Graphika, and a cyber threat analyst at the CyberPeace Institute in Geneva, where she led a project mapping Iranian state-linked hacktivist campaigns and contributed to the Institute's methodology for measuring the human and environmental harms of cyberattacks.
